

SUMMARY OF PETITION

Hethersett Residents

Dear Sir`s

"We the undersigned recognise that Hethersett must play its part in providing extra housing sites for the villages true demographic needs.

We request that no more new properties be built than its infrastructure can accommodate and in specific terms draws to the attention of Inspector Mr R Foster, MA MRTPI, the very limited road space which exists within various of the "original" road structure of Hethersett."

This can clearly be witnessed in the village at any time of day, but the traffic exceeds all reasonable practicality early evenings from 4.30pm – 7.0pm in the Heart of the village outside tesco , and the main road through the village (Queens Road) at all school starting and finishing times. The traffic congestion is now getting to the point of Danger. Attached are hundreds of signatures from our villager`s of Hethersett . These are names of people , Old and Young, new comers and people who have lived here a life time , 1,5,10,20,40,80+years, all with concerns regarding more new houses , traffic congestion and safety.

Kind Regards

The Villagers of Hethersett
