Dated 4th February 4th 2011

Dear Inspector Foster

Joint Core Strategy for Broadland, Norwich and South Norfolk – Inspector’s Possible Changes: Flexibility and Resilience of the JCS in relation to the Norwich Northern Distributor Road (NDR) – issued 5 January 2011

Our parish Council has asked on previous occasions for Traffic Projections concerning the effect on the local community with regard to the JCS and in particular the North East Triangle.

It has just become known that no modelling has in fact been done.

This is a classic example of the GNDP not providing meaningful information to the Inspectors to enable them to conclude whether the JCS can be seen as sound.

This is yet more evidence a further day of Public Hearing is required.

Yours sincerely

Cllr A N Townly on behalf of Gt & Lt Plumstead Parish Council
