**Green Infrastructure Works So Far...**

**£35,000 Funding in 2014**

**Joint Project between;** Norwich City Council and Norwich Fringe Project

**Objective;**

To enhance Danby Wood and Marston Marsh for users and wildlife. Make the sites more resilient to cope with increased usage generated by growth in the area and to extreme weather events and provide improved links to strategic green infrastructure in the Yare Valley.

**Sample Local Development;**

- Roundhouse Way, Cringleford (multiple phases and other development interests 1000+ dwellings)
- Lakenham, 65 dwellings

**Managed by;** Norwich Fringe Project on behalf of Norwich City Council

**Danby Wood/Marston Marsh**

## Norwich beauty spot to benefit from £35,000 boost

07:00 19 December 2014 | Dan Grimmer

*“Funding like this doesn’t often come along and it is giving us a really exciting opportunity to do some extremely positive access improvement and woodland management work.”*

*“We know people have concerns when it appears trees are being taken down for no apparent reason, so we’d like to reassure them of the importance of the work...some of the trees have reached a height where there is a risk they could be blown down in a gale, while removing selected trees will increase the light to the woodland floor, allowing new saplings to grow and giving other trees space to grow and mature.”*

**Matthew Davies, Project Officer for Norwich Fringe Project**

*“I am pleased to see that the city council and the Norwich Fringe Project will be undertaking tree management work within Danby Wood. I am a regular conservation volunteer with the fringe project and have learned much about woodland and conservation management and seen the benefits it can deliver.”*

**Chris Stebbing, Vice Chairman of Eaton Village Residents’ Association**

## Danby Wood/Marston Marsh

# Danby Wood

# Marston Marsh

**£40,000 Funding in 2014**

**Joint Project between;** *South Norfolk District Council, Easton and Otley Collage and Norfolk and Norwich University Hospital*

**Objective;**

*To create an asset for the Norfolk and Norwich Hospital and its visitors and patients. Contributing to public physical and mental health through recreation.*

**Sample Local Development;**

- *Roundhouse Way, Cringleford (multiple phases and other development interests 1000+ dwellings)*
- *NRP*

**Managed by;** *Norfolk and Norwich University Hospital*

# Hospital Woodland Walk

*"We would like to thank the volunteers for their contribution in creating the woodland walk which will enhance the facilities on our site and provide a peaceful area for walks away from the busy hospital environment."*

**John Fry, Chairman of NNUH**

*"We have had tremendous support from our volunteers and other external experts who have given up their time to create the woodland walk."*

**Chris Paul, Corporate and Social Responsibility Manager for Serco**

*"It's well-documented that contact with green spaces can be beneficial to health and well-being...It's a wonderful new facility and will bring all the benefits of going for a walk in the woods to both staff and visitors".*

**David Yates, NCC**

*"Working on real life projects helps our learners develop new skills and we hope that the woodland area that they have helped create in the hospital grounds, will be a peaceful place that is enjoyed by local residents for many years to come ."*

**John Nice, spokesperson for Easton and Otley College**
