Community Infrastructure Levy Regulations 2011 (amended) Preliminary Draft Charging Schedule Consultation 3 October 2011 – 14 November 2011

How to respond to this consultation

The Community Infrastructure Levy (CIL) is a new levy that local authorities in England and Wales can charge on new developments in their area. The money will be used to support development by funding infrastructure that the council, local community and neighbourhoods want – for example, new or safer road schemes, public transport and walking and cycling schemes, park improvements or a community hall.

The system is very simple. It applies to most new buildings and charges are fixed based on the size, type and location of the new development.

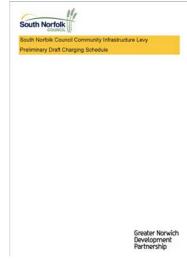

The three councils of Broadland, Norwich and South Norfolk have chosen to work together as the Greater Norwich Development Partnership (GNDP) and adopt a coordinated approach to the implementation of CIL. In order to comply with the regulations, three separate Preliminary Draft Charging Schedules have been published for comment. These are almost identical and they share the same evidence base. The only difference in the schedules relates to the geographical charging zones, Norwich is entirely in Zone A and Broadland and South Norfolk include areas in both Zone A and Zone B.

This is the first stage in consultation for setting a CIL for the three districts.

The Broadland District Council Preliminary Draft Charging Schedule looks like this: The Norwich City Council Preliminary Draft Charging Schedule looks like this: The South Norfolk Council Preliminary Draft Charging Schedule looks like this:

Getting involved

The consultation documents are:

- Preliminary Draft Charging Schedule for Broadland
- Preliminary Draft Charging Schedule for Norwich
- Preliminary Draft Charging Schedule for South Norfolk

As part of this consultation a number of documents providing supporting evidence have been published:

- The explanatory document 'Community Infrastructure Levy: Background and Context'
- Viability Advice on a CIL/ Tariff for Broadland, Norwich and South Norfolk (GVA, December 2010)
- Charging Zones Schedule Report (GVA, July 2011)
- Topic Paper: Green Infrastructure and Recreational Open Space (GNDP, June 2011)

There is also earlier background information supporting this consultation:

- Joint Core Strategy for Broadland Norwich and South Norfolk adopted March 2011
- Infrastructure Needs and Funding Study (EDAW/ AECOM 2009)
- Local Investment Plan and Programme for Broadland, Norwich and South Norfolk v4 June 2011

All these documents are available on the GNDP website, at www.gndp.org.uk.

The consultation documents and evidence can be viewed at each of the district council offices.

The consultation documents will also be available at libraries, at the Broads Authority offices and at the Norfolk County Council offices at County Hall. Where facilities are available evidence can be accessed via the GNDP website, www.gndp.org.uk.

The Department of Communities and Local Government has produced a helpful guide to the Community Infrastructure Levy that can be found on their website:

http://www.communities.gov.uk/publications/planningandbuilding/cilsummary

You can respond to this consultation by email or by post:

The Preliminary Draft Charging Schedules and the supporting evidence are open for six weeks of consultation from **3 October 2011** to **14 November 2011**. Consultation responses must be received by **5pm** on **Monday 14 November 2011** in order to be considered.

A response form is available on the GNDP website at www.gndp.org.uk. If possible, please use this form to assist us in analysing your response and in publishing them correctly.

For more information contact the GNDP:

tel: 01603 430144 **email:** cil@gndp.org.uk

When responding to the consultation you can comment on one, two or all three schedules. You can:

- Use one form to comment on the Preliminary Draft Charging Schedule for one district using one response form, or to give the same comment on the Preliminary Draft Charging Schedules for two or all districts or,
- Use more than one form to give different comments for each district's Preliminary Draft Charging Schedule that you are commenting on

Please note that comments cannot be treated as confidential. All responses to this consultation will be made available as public documents. Unfortunately we are only able to acknowledge emailed responses, but all comments will be carefully considered.

Forms and comments can be:

emailed to: cil@gndp.org.uk

posted to: GNDP, PO Box 3466, Norwich, NR7 7NX

hand delivered: to your local district council office:

- Broadland District Council, Thorpe Lodge, 1 Yarmouth Road, Norwich NR7 0DU
- Norwich City Council, City Hall, St Peter's Street, Norwich, NR2 1NH
- South Norfolk Council, South Norfolk House, Swan Lane, Long Stratton, NR15 2XE

Evidence				
Please use this section to give us any comments you have on the evidence:				
 The explanatory document 'Community Infrastructure Levy: Background and Context' Viability Advice on a CIL/ Tariff for Broadland, Norwich and South Norfolk (GVA, December 2010) Charging Zones Schedule Report (GVA, August 2011) Topic Paper: Green Infrastructure and Recreational Open Space (GNDP, June 2011) 				
Question 1:	Having considered the evidence do you agree the appropriate balance between the desirability of funding from CIL and impacts on the economic viability have been met?			
Yes	No 🔲			
Please add an	y comments below			
My answer applies to (please tick one or more of the boxes): Broadland Norwich Norfolk All				

_					
Geographical	Geographical zones				
Please use this section to give us any comments about the boundaries of the geographical charging zones shown in appendix 1 of the Preliminary Draft Charging Schedule					
Non-residenti	al development zone boundary				
Question 2:	It is intended that, for non-residential development, one charging area will apply to the administrative areas of Broadland District Council, Norwich City Council and South Norfolk Council. Do you agree with this approach?				
Yes	No \square				
Please add an	y comments below

Charging Schedule						
Please use this section to comment on the rates of charge as shown in the table on page 2 of the Preliminary Draft Charging Schedule						
Residential development – Zone A Question 4a: It is intended that the rate of charge for residential development in Zone A will be within a range of £135 to £160 per m2.						
What do you think the rate should be?						
Question 4b: What is your just	tification for this rate?					
My answer applies to (please tick one or more of the boxes): Broadland Norwich Norfolk All						

Residential development – Zone B: Question 5a: It is intended that the rate of charge for residential development in the Zone B will be £75 per m2. Do you agree with this approach?
Yes No Delase add any comments below
It is understood that striking the balance between the need for infrastructure investment and encouraging development is difficult, however if the CIL levy agreed at this time is to be relevant for the LDF period to 2026, then this amount is unlikely to keep pace with inflation and rising costs of delivering infrastructure over that period. Is there an intention to review the CIL rate in say five years time to ensure that it is relevant to the economic situation of the time?
Question 5b: If you answered no to the above question:
What should the charge be?
What is your justification for this rate?
My answer applies to (please tick one or more of the boxes): Broadland Norwich Norfolk All

Residential development – zones A and B Question 6a: It is intended that the rate of charge for domestic garages (excluding shared-user garages) in Zones A and B will be within a range of £25 to £35 per m2.						
What do you the should be?	nink the rate					
Question 6b:	What is your just	ification for t	this rate?			
It is difficult to comment on whether the rate is appropriate but there is concern that a CIL levy on domestic garages could have an impact on the number of garages that are built, especially as part of larger developments.						
My answer applies to (please tick one or more of the boxes): Broadland Norwich South All						

•	lence goods based supermarkets and supermarkets It is intended that the rate of charge for large convenience goods based supermarkets and superstores of 2,000m2 gross or more will be £135 per m2. Do you agree with this approach?
Yes	No
Please add any	comments below
as Tesco and t usually built in resulting in loca	velopment is almost always undertaken by large organisations (such the like), which have huge resources, make large profits and are towns around the County in complete opposition to local people and all traders going out of business. These types of stores should attract a te of CIL levy to offset the damage these large stores do to the local
Question 7b:	If you answered no to the above question:
What should th	e charge be?
What is your ju	stification for this rate?
	Council is not in a position to provide any 'evidence' regarding CIL levy It to comment on this. But from a 'layman's' perspective, perhaps
My answer app Broadland	olies to (please tick one or more of the boxes): Norwich South All Norfolk

garages). Do you agree with this approach?				
Yes No				
Please add any comments below				
We would respectfully suggest that where a 'leisure' development, such as a new community or leisure centre commissioned by local authorities or community enterprises which will be run as a not for profit venture should be exempt from CIL. S106 could still be used to provide the necessary on-site infrastructure needed to support the development.				
Question 8b: If you answered no to the above question:				
What should the charge be?				
What is your justification for this rate?				
My answer applies to (please tick one or more of the boxes): Broadland Norwich Morfolk All				

Community uses Question 9a: It is intended that the rates of charge for all other Community Uses will be £0 per m2. Do you agree with this approach?					
Yes No Delase add any comments below					
Question 9b: If you answered no to the above question:

There are other issues we would like your views on, though these are not part of the Preliminary Draft Charging Schedules.

Discretionary relief					
The approach to discretionary relief can be found on page 3 of the Preliminary Draft Charging Schedule and in section 12 of the 'Community Infrastructure Levy: Background and Context'.					
Question 11 Do you agree with the approach to Discretionary Relief?					
Yes No Delase add any comments below					
My answer applies to (please mark one or more of the boxes):					
Broadland Norwich South Norfolk All					
Staging of payments					
The approach to the staging of payments can be found in page 3 of the Preliminary Draft Charging Schedule and in section 11 and appendix 4 of the document 'Community Infrastructure Levy: Background and Context'.					
Question 12: Do you have any comments about the draft policy					
Yes No Delase add any comments below					
Staged payments of CIL spread across a time period seems a sensible approach especially to make it more affordable for developers, however there may be a number of factors that affect a developers ability to complete a development, or stages of a development within the time period set out in the proposals. Could it not be, as now with s106 payments, that staged payments are made once a percentage of the total number of dwellings approved have been completed?					
For developments incurring CIL liability of £60,000 to £999,999 with two equal instalments, the first to be 60 days after commencement would be a significant financial outlay if, for example, it was at the higher end of this range, so early on in the development. Does this approach not risk the development becoming unviable as a result of the CIL levy?					
My answer applies to: (please mark one or more of the boxes): Broadland Norwich Norwich Norfolk All					

Payment in kind
Within the GNDP area, where land is required within a development to provide built infrastructure to support that development (such as a school) it will be expected that land transfer will be at no cost to the local authorities and will not be accepted as a CIL payment in kind. Where the facility is needed to serve more than one development, any land transfer over and above that needed for the specific development would be regarded as payment in kind of CIL. The approach to payment in kind can be found on page 3 of the Preliminary draft charging schedule and in section 12 of the document 'Community Infrastructure Levy: Background and Context'.
Question 13: Do you agree with the approach to payment in kind?
Yes No
Please add any comments below
My answer applies to: (please mark one or more of the boxes):
Broadland Norwich South Norfolk All

Neighbourhoods and CIL

The Government proposes that neighbourhoods where development takes place will receive a 'meaningful proportion' of CIL revenue to spend on infrastructure projects locally. The local community will be able to decide how this money should be spent as long as it is used for infrastructure.

The government is currently consulting on this proposal which can be found its website at www.dclg.gov.uk.

The consultation suggests that in Broadland and South Norfolk districts the Parish and Town Councils will take on this responsibility. In Norwich, where there are no Parish or Town councils, an approach appropriate to the area will need to be developed.

Question 14a: Subject to any updated Regulations it is proposed that 5% of the net CIL receipts be passed to local communities (e.g. the Parish Council or Town Council in the two rural districts) who express an interest in receiving it. Do you agree with this approach?

Yes

No

Please add any comments below

Diss Town Council does not believe that 5% will be sufficient, and from comments made at a conference attended this week, would appear to be nowhere near the amount that the Government is considering as a 'meaningful proportion' of net CIL receipts for local communities (although it is appreciated that guidance on this matter is still awaited).

There are a minimum of 300 homes proposed for Diss, but with its history of an average of 100 homes per year built since the war, there is no reason that there wouldn't be up to 1500 more homes in Diss by the end of the current LDF period. Diss Town Council has long argued that there has been insufficient focus paid to the infrastructure needs of Diss that will be required for future development and given that there are virtually no infrastructure requirements identified, the question that we would ask is where would the remaining 95% of CIL levy from developments in the town go?

Currently under s106 agreements from larger developments, the town can expect a reasonable contribution toward recreational facilities. As an example, a recent development of 50 homes raised £35,740 for this purpose. Under the CIL levy proposals, 5% will equate to £12,563 – which could be used for any purpose, not just recreation. Also under s106, contributions are made to local walking/cycling strategies, the library and schools amongst others. Will there still be contributions to these services and facilities under CIL to offset the additional demands on them created by the development or do they have to have been identified on the CIL Regulation 123 list to qualify for funding from this source?

It would appear that most parishes have no idea of what infrastructure requirements have been identified for each parish/development area, even where larger numbers of houses are proposed. This will make it very difficult for them to establish what their priorities for their element of CIL should be and whether the 5% proposed will be sufficient to help in delivering them. It was suggested that parishes could choose to contribute their CIL levy toward a larger infrastructure project being delivered by others, but how can this be considered when it is not known what those projects are likely to be?						
We would therefore recommend that 10% should be the minimum that communities receive and that an infrastructure list for each area where development has been identified should be created for appraisal by parishes/communities.						
My answer applie	es to: (please r	mark one o	or more of th	ne boxes):
